Experience

Spring Education 2025 Phnom Penh - Cambodia

- Collaborated in a fast-paced environment to analyze user needs and communicate product features effectively.

LocknLock 2025 - 2026 Phnom Penh - Cambodia

LocknLock is a leading global home appliance brand. I have extensive experience in managing daily store operations and sales support.

- Resolved complex hardware and software issues for store operations and payment systems.
- Maintained store standards, including monitoring and reporting technical malfunctions.

Technical Project

- MindEase - AI Wellness Web Application (2026): Developed a responsive landing page and web application for an AI-powered wellness platform. Designed a user-centric interface that includes mood tracking, journaling, and guided breathing exercises to promote mental well-being.
